THE UNIVERSITY OF GEORGIA BULLETIN 1992-94

COLLEGE OF PHARMACY

The University of Georgia is committed to the principle of affirmative action and shall not discriminate against otherwise qualified persons on the basis of race, color, religion, national origin, sex, age, physical or mental handicap, disability, or veteran's status in its recruitment, admissions, employment, facility and program accessibility, or services.

While every effort is made to provide accurate and current information, the University reserves the right to change, without notice, statements in the Bulletin concerning rules, policies, fees, curricula, courses, calendar, or other matters. Students enrolled at the University agree to comply with the University's rules and regulations and to accommodate to any changes necessary. Further, the statements set forth in this bulletin are for informational purposes only and should not be construed as the basis of a contract between a student and the institution.

ACADEMIC CALENDAR 1992-1994

1992

FALL QUARTER

Residence Halls Open	Sept. 14, M
Orientation	Sept. 15, Tu
Late Registration (Graduate Students)	Sept. 16, W (1:00-5:00 p.m.)
Late Registration (All Students)	Sept. 17-18, Th-F
Classes Begin	Sept. 21, M
Drop/Add	Sept. 21-23, M-W
Midpoint of Quarter	Oct. 23, F
Thanksgiving Recess	Nov. 21-29, Sa-Su
Classes End	Dec. 4, F
Final Exams	Dec. 7-10, M-Th

1993

WINTER QUARTER

Residence Halls Open	Jan. 3, Su
Orientation	Jan. 4, M
Late Registration (Graduate Students)	Jan. 4, M (1:00-5:00 p.m.)
Late Registration (All Students)	Jan. 5, Tu
Classes Begin	Jan. 6, W
Drop/Add	Jan. 6-8, W-F
Holiday (No Classes)	Jan. 18, M
Midpoint of Quarter	Feb. 10, W
Classes End	Mar. 17, W
Final Exams	Mar. 18-19, 22-23, Th-F, M-Tu

1993

SPRING QUARTER

Residence Halls Open	Mar. 28, Su
Orientation	Mar. 29, M
Late Registration (Graduate Students)	Mar. 29, M (1:00-5:00 p.m.)
Late Registration (All Students)	Mar. 30, Tu
Classes Begin	Mar. 31, W
Drop/Add	Mar. 31-Apr. 2, W-F
Midpoint of Quarter	May 4, Tu
Classes End	June 7, M
Final Exams	June 8-11, Tu-F
Commencement	June 12, Sa

1993	FALL QUARTER
-------------	---------------------

Residence Halls Open	Sept. 7, Tu
Orientation	Sept. 8, W
Late Registration (Graduate Students)	Sept. 9, Th (12:00-5:00 p.m.)
Late Registration (All Students)	Sept. 10, 13, F, M
Classes Begin	Sept. 14, Tu
Drop/Add	Sept. 14-16, Tu-Th
Midpoint of Quarter	Oct. 19, Tu
Thanksgiving Recess	Nov. 20-28, Sa-Su
Classes Resume	Nov. 29, M
Final Exams	Nov. 30-Dec. 3, Tu-F

1994	WINTER QUARTER
-------------	-----------------------

Residence Halls Open	Jan. 2, Su
Orientation	Jan. 3, M
Late Registration (Graduate Students)	Jan. 3, M (1:00-5:00 p.m.)
Late Registration (All Students)	Jan. 4, Tu
Classes Begin	Jan. 5, W
Drop/Add	Jan. 5-7, W-F
Holiday (No Classes)	Jan. 17, M
Midpoint of Quarter	Feb. 9, W
Classes End	Mar. 14, M

The University System of Georgia

The University System of Georgia includes 34 state-sponsored, public institutions located throughout Georgia—5 universities, 14 senior colleges and 15 two-year colleges.

A 15-member constitutional Board of Regents—one from each of the state's 10 Congressional Districts and five from the state-at-large—governs the University System which was established in 1932. Board members are appointed by the Governor, subject to state senate confirmation, for seven year terms.

The Chairperson, the Vice Chairperson, and other officers of the Board are elected by its membership. The Chancellor, who is not a Board member, is the chief executive officer of the Board and chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: Instruction; Public Service/Continuing Education; Research.

INSTRUCTION includes programs of study leading to degrees, ranging from the associate (2-year) to the doctoral level, and certificates.

Requirements for admission to instructional programs are set by institutions, pursuant to

policies of the Board of Regents which sets minimum academic standards and leaves each institution the prerogative of establishing higher standards. Application for admission should be made directly to institutions.

A Core Curriculum, defining freshman and sophomore courses for students who seek degrees beyond the associate level, is in effect for all University System institutions. This 90-hour Curriculum includes 60 in general education—humanities, mathematics, natural and social sciences—and 30 in the student's chosen major area. It facilitates transfer of freshman and sophomore credits within the University System.

PUBLIC SERVICE/CONTINUING EDUCATION includes non-degree programs, special college-degree-credit courses, and institutional outreach programs.

Non-degree activities would include short courses, conferences, seminars, lectures and consultative services in many interest areas. These activities, usually of short duration, are designed to meet special educational, informational and cultural needs of people served by institutions. All institutions conduct some non-degree public service/continuing education.

College-degree-credit courses are typically offered through extension center programs and teacher education consortiums.

RESEARCH encompasses investigations conducted for the discovery and application of knowledge. These investigations include clearly defined projects in some cases and non-programmatic activities in other cases. Research is conducted on campuses and at other locations and projects related to a large variety of educational objectives and societal needs. Most research is conducted by the 4 universities though some senior colleges also have research efforts underway.

Board of Regents' policies for government, management and control of the University System and the Chancellor's administrative actions provide institutions a high degree of autonomy. The President is the executive head of each institution and is recommended by the Chancellor and appointed by the Board.

The University System Advisory Council, with 34 committees, engenders continual dialogue on

major academic and administrative matters and makes recommendations to the Chancellor, who transmits them to the Board as appropriate, regarding academic and administrative operations in the System. The Council consists of the Chancellor, the Vice Chancellor, and all Presidents as voting members. It includes other officials of institutions as nonvoting members. The Council's 21 academic and 13 administrative committees are composed of institutional representatives, typically one from each unit, and deal with matters of System-wide application.

Matriculation fees and nonresident tuition fees for students at all institutions are established by the Board of Regents. All students pay matriculation fees while out-of-state students pay nonresident tuition in addition. Other fees for student services and activities are established by institutions, subject to Board of Regents' approval. Non-mandatory fees established by institutions are subject to approval of the Board of Regents office.

The College of Pharmacy

OFFICERS OF ADMINISTRATION

Feldman, Stuart, Ph.D., *Professor and Dean*
Francisco, George Elden, Jr., Pharm.D., *Associate Professor and Associate Dean*
Hawkins, David Warner, Pharm.D., *Professor and Assistant Dean*
Perri, Matthew III, Ph.D., *Associate Professor and Coordinator of Research and Graduate Studies*
Thomas, Patricia Cole, B.S., *Clinical Pharmacy Associate and Assistant to the Dean*
Duke, Kenneth Martin, M.B.A., *Clinical Pharmacy Associate and Assistant to the Dean*
Ozburn, William Michael, Ed.D., *Director of Postgraduate Continuing Education and Pharmaceutical Services*

Development

Jowdy, Albert Willoughby, Ph.D., *Development Coordinator*

General Information

HISTORY

In 1903, the committee on laws and disciplines of the Board of Trustees authorized the organization of a School of Pharmacy at The University of Georgia at Athens. At the same time, Dr. S. C. Benedict was appointed to the chair of Materia Medica in the School. Space was allocated in Terrell Hall for the School and six students enrolled for the 1904-1905 year. The educational objective of those six registrants was to matriculate for two years and receive a Ph.G. degree.

In January 1907, due to an illness of Dr. Benedict, Mr. Robert C. Wilson was elected Instructor in Pharmacy to relieve Dr. Benedict of many of the classroom activities. Dr. Benedict remained as dean until 1914, when Professor Wilson was placed in charge of the Department of Pharmacy as director.

Dean Wilson's continuous struggle to improve pharmacy in Georgia led to development of the first four-year required pharmacy degree in the nation, beginning in 1926. In 1939, the School moved to quarters in New College and was accredited by the American Council on Pharma-

ceutical Education, a rating which has been maintained continuously since that time.

Upon Dean Wilson's retirement in 1948, Dr. Kenneth L. Waters was named dean of the School of Pharmacy. Under Dean Waters' guidance the school grew to the point where a new facility was deemed essential. The building was completed in 1964. One year later the first students of the five-year pharmacy program graduated.

Upon Dean Waters' retirement in 1977, Dr. Howard C. Ansel was named dean and remained in this capacity until 1991. During Dean Ansel's administration, the Doctor of Pharmacy program was established, and the clinical programs became an integral part of the Medical College of Georgia campus. As a result of the broadening of the scope of its instructional and research programs, the School title was changed to College of Pharmacy in 1983. The equipment and physical facilities of the Pharmacy Building were enhanced, and plans were made for future expansion through a research annex. When Dr. Ansel returned to teaching in 1991, he was succeeded as dean by Dr. Stuart Feldman.

PURPOSE

The purpose of The University of Georgia College of Pharmacy is to provide for the comprehensive academic needs of the profession of pharmacy. Manpower needs of the profession are supplied through the College's professional baccalaureate and doctor of pharmacy education programs, which prepare students for the practice of pharmacy, and through its graduate program, which prepares individuals for professional specialization and for a career in teaching and research. The postgraduate educational needs of the profession are met by the College's continuing education and service programs. Faculty research supports all of these programs and contributes to the advancement of the body of pharmaceutical knowledge.

FACILITIES

The College of Pharmacy is housed in facilities completed and occupied in the spring of 1964. Two basic concepts were incorporated into the design of the new building: 1) that it should be a functional facility conducive to learning, and 2) that as many laboratory and research areas as possible should be on display. The first was

considered basic to any educational building; the second was intended to stimulate interest in pharmacy among nonpharmacy students and interest in graduate work among professional undergraduate students.

PROGRAMS OF STUDY

The Bachelor of Science in Pharmacy degree is awarded to students who successfully complete the five-year study of prescribed courses. The first two years (pre-pharmacy) may be completed at any accredited institution of higher education. The last three years (professional) must be in residence at the College of Pharmacy. Nine quarters of residence in the professional baccalaureate program are required by the American Council of Pharmaceutical Education.

Students in their second professional year may apply to "track" toward a Doctor of Pharmacy degree. The availability of clinical sites and preceptors may limit the number of positions in the class. Currently the Pharm. D. tracking program is thirteen professional quarters in length, and a portion of the program is taught at The Medical College of Georgia in Augusta and at other off-campus sites.

A postbaccalaureate Doctor of Pharmacy degree, which is six quarters in length, is available. All professional programs are accredited by the American Council on Pharmaceutical Education.

The University of Georgia Graduate School offers the Master of Science degree and Doctor of Philosophy degree in various specialty areas of the College of Pharmacy.

ADMISSION TO PROFESSIONAL PROGRAMS

To be admitted to a professional program in the College of Pharmacy, a student must complete pre-pharmacy requirements. At The University of Georgia, the pre-pharmacy program is administered through the College of Arts and Sciences. The two years of pre-pharmacy education require satisfactory completion of not less than 90 quarter hours of academic work counting toward the pharmacy degree. In addition, students must meet the general requirements for physical education.

PRE-PHARMACY CURRICULUM*

AREA I - HUMANITIES/ FINE ARTS	Quarter Hours
ENG 101, 102	10
SPC 108	5
Literature—a course may be chosen from: CLC 120, 121, 150, CML 221, 222, 225H, 226H, ENG 231G, 232G, 233G, 105H, 235H, 236H, 237H; intermediate level foreign language (at the 100-200 level)	5
AREA II - MATHEMATICS AND NATURAL SCIENCES	
MAT 116*	5
CHM 121 and 121L, 122 and 122L, 123 and 123L	15
AREA III - SOCIAL SCIENCES	
HIS 251 or 252	5
POL 101	5
ECN 106 or 107 (106 preferred)	5
Elective—may be chosen from: ANT 102; HIS 111, 112, 121, 122, 251#, 252#; POL 202; PSY 101, 258; SOC 105, 111, 160	5
AREA IV - MAJOR	
CHM 240 and 240L, 241 and 241L	10
BIO 103-103L, 104-104L	10
PCS 127-127L, 128-128L	10
PEB 100-165 (Physical Education)	2

*MAT 253 suggested as a substitute if student qualifies.

#Either HIS 251 or 252 must be taken as a required course; the other may be taken as an elective.

Applicants to a professional program must take the Pharmacy College Admission Test (PCAT). The fall offering date is the preferred time. In addition to the applicant's grade point average, the selection process will utilize the PCAT scores and recommendations. The College of Pharmacy accepts students into its professional program for fall quarter only.

Application to the College of Pharmacy should be submitted by March 1. Transcripts showing all college work taken should accompany the application. Students may make application to the Dean of the College of Pharmacy when they have completed four quarters of academic work. Applicants who are accepted but do not attend for the accepted term may repeat the admission process for a future date.

Applicants for admission to the College of Pharmacy who are known to have been officially dismissed from another pharmacy program will not be accepted. A student who gains entrance to the College by misrepresentation of facts may be dismissed immediately.

ADMISSION TO THE POSTBACCALAUREATE DOCTOR OF PHARMACY PROGRAM

Persons holding a baccalaureate degree in pharmacy from an A.C.P.E. accredited institution may apply to the Pharm.D. academic program. Inquiries should be sent to the Office of the Dean.

ADMISSION TO THE GRADUATE PROGRAM

In addition to its professional degrees, the College of Pharmacy offers opportunities for advanced study in each of its five departments. These studies are open to individuals holding baccalaureate science degrees. Programs are available which lead to the M.S. and Ph.D. degrees. Individuals interested in pursuing one of these programs should apply directly to the Graduate Coordinator, The University of Georgia College of Pharmacy, Athens, GA 30602.

Regulations

HOURS

In order to receive the Bachelor of Science degree from the College of Pharmacy, a student must have earned not less than 231 quarter hours of required credit, exclusive of physical education, with a cumulative grade point average of at least 2.0. Similarly, a minimum of 291 hours are required for the tracking Pharm.D. program.

ACADEMIC LOAD

All baccalaureate students in the College of Pharmacy must take a minimum academic load of twelve credit hours per quarter for a minimum of nine quarters unless excused by the dean.

PHARMACY EXTERNSHIP AND CLINICAL PROGRAMS

As a part of the baccalaureate curriculum and tracking Pharm.D. program, pharmacy students are required to participate in externship and clinical programs which provide the student with educational experiences in practice settings such as community pharmacies, hospital pharmacies, clinics, and teaching hospitals. During the course of their academic program, students may be required to obtain their externship and/or clinical education at an out-of-town location deemed by the faculty to be most suitable for the desired experience and training. Among the facilities presently being used are the teaching hospitals and clinics associated with the Medical College of Georgia, located in Augusta.

PHARMACY INTERNSHIP

In order to become licensed to practice pharmacy in the state of Georgia, 1500 hours of internship must be earned as a full-time intern under the supervision of a pharmacist. Credit for internship may be received only after a student has been accepted into a College of Pharmacy. Students are encouraged to satisfy

internship requirements during the summers. A total of 480 hours of credit toward internship will be awarded for work performed while registered for academic credit in an authorized externship program. An intern license is required for participation in the externship program.

All intern pharmacists must contact the Joint Secretary, State Examining Boards, 166 Pryor Street, S.W., Atlanta, Georgia 30303 in order to receive a license. The pharmacist supervising the intern must also notify the joint secretary that the intern is under his/her supervision.

SCHOLARSHIP REQUIREMENTS

In addition to the general University requirements relative to scholarship, the following requirements must be met by all professional students:

All grades of C (2.00) or better will be given credit toward graduation and will allow student progression in all Pharmacy courses, ZOO 312-312L, MIB 350-350L, and required electives. The first grade of D received, provided only one grade of D is received that quarter, in any one Pharmacy course, ZOO 312-312L, MIB 350-350L or required elective will be given credit toward graduation and will allow student progression. Any subsequent grade of D in any course must be replaced with a grade of C or better in that course before credit toward graduation and prerequisite course credit will be given. If more than one grade of D is received in a quarter, then all grades of D must be replaced with grades of C or better in those courses before credit toward graduation and prerequisite credit will be given. An overall average grade of C (2.00) must be earned in all Pharmacy courses, ZOO 312-312L, MIB 350-350L and required electives to graduate.

For students in academic difficulty, conditions for readmission and continuance in the pharmacy program will be set during a personal interview with the dean and/or the Pharmacy Academic Committee.

REGENTS' TESTING PROGRAM

This is a standard test of English reading and composition skills of the University System of Georgia. All students seeking an undergraduate degree must pass the exam during their sophomore year. Transfer students to the University System schools must take the test within the first 2 quarters of residence. Failure of the test will require remediation. Students having a prior baccalaureate degree from a regionally accredited institution may be exempt from the test.

ACADEMIC PREPARATION

Students are expected to maintain a schedule of home study so they are prepared for daily classes and are always up-to-date in their coursework. This requires students to establish early study habits best suited to their own capabilities and to adjust to the demands of the prescribed curriculum. The successful study of pharmacy necessitates the assimilation of a large amount of subject matter. The curriculum is arranged in a sequence to insure a progression of courses which results in a meaningful correlation between the basic sciences and clinical areas of study and application. Courses do not end with final examinations each quarter, but supplement all others in the total professional curriculum.

CLASS ATTENDANCE

Regular attendance at classes, laboratories (including clinics) and examinations is a student obligation, and the unexcused absence, or "cut," is not recognized as a student privilege by the faculty of the College of Pharmacy. Students are expected to give reason for their absence to individual instructors and to make up all work missed due to the absence. Individual faculty will set the attendance standards for each class.

DRESS

Students of pharmacy are expected to dress neatly and professionally at all times. Certain classes and laboratories may require specific attire.

ATTITUDE AND CONDUCT

Students who conduct themselves, either personally or professionally, in a manner unbecoming a professional person may be subject to dismissal from the program. Students in the College are also governed by the rules and regulations of the University. Special attention is directed to the general *Undergraduate Bulletin* and to the *Student Handbook*.

Grading System

The grading system for The University of Georgia is as follows:

- | | |
|-----------------------|-----------------------------|
| A Excellent | *D Passing |
| B Good | F Failure |
| C Satisfactory | WF Withdrew, failing |
- I** Incomplete. This symbol indicates that a student was doing satisfactory work but, for non-academic reasons beyond his/her control, was unable to meet the full requirements of the course. If an I is not satisfactorily removed after three quarters, the symbol I will be changed to the grade F by the appropriate official.
- W** This symbol indicates that a student was permitted to withdraw without penalty. Withdrawals without penalty will not be permitted after the midpoint of the quarter (date to be specified in the *Schedule of Classes*) except in cases of hardship as determined by the appropriate official.
- WF** This grade indicates that the student was permitted to withdraw from the course while doing unsatisfactory work. Withdrawal from

a course under these circumstances is equivalent to a failure. This grade is included in the academic average.

- S** This symbol indicates satisfactory participation in certain required courses. Normally S grades are given in a limited number of professional, seminar, or graduate-level courses. Credit is included in hours earned. The grade is not included in the academic average.
- U** This symbol indicates unsatisfactory performance in certain required courses in which S grades may normally be given. No credit is given. The grade is not included in the academic average.
- V** This symbol indicates an audit. No credit is given. The grade is not included in the academic average.
- K** This symbol indicates that a student was given credit for the course via a credit by examination program approved by the faculty, e.g., CLEP, AP, Proficiency, etc.
- ER** This symbol indicates an error in reporting. See your dean.

*See Scholarship Requirements on page 12.

Cumulative grade average is based on all residence hours attempted at the University exclusive of S and U grades.

For purposes of computing grade point averages, letter grades are converted into numerical equivalents:

A	4.0	I	*
B	3.0	S	*
C	2.0	U	*
D	1.0	V	*
F	0	K	*
WF	0	W	*

*Not computed

ACADEMIC PROBATION

University-wide regulations provide that students are placed on academic probation at the end of any quarter in which their cumulative GPA is below 2.0. Students may remove themselves from academic probation by achieving a 2.0 cumulative average. Transfer credits are not included in the computation of the cumulative grade average.

Students enrolled in the Doctor of Pharmacy program must maintain a cumulative grade point average of 2.5 in required, non-elective pharmacy courses in order to progress in the program. Courses taken prior to entering the Pharm.D. program will not be considered in this calculation.

ACADEMIC DISMISSAL

Pharmacy students will be dismissed after two successive quarters on probation if their cumulative average is below that required for a designated number of total hours attempted as follows:

Dismissal Standards

Hours Attempted	Required Minimum Average
0 - 30	1.60
31- 59	1.70
60 - 89	1.80
90 - 119	1.90
120 and above	2.00

Students will be considered enrolled for any quarter in which they received a grade or grades other than "W."

Students whose cumulative average does not meet the minimum listed above will not be subject to dismissal for academic reasons if they earn a minimum grade point average of 2.30 while taking an academic load of at least ten (10) credit hours each quarter.

Upon receiving a First Dismissal, a student will be suspended from the University for a minimum of two quarters. At the end of the suspension, readmission may be granted at the discretion of the academic dean.

After a Second Dismissal, only through appeal to the University Educational Affairs Committee can permission to return to the University be granted. A minimum of one calendar year must lapse before a student on Second Dismissal may petition for readmission.

Finances and Aid

EXPENSES

Expenses for pharmacy students at The University of Georgia are higher than for most other on-campus students. The following (not including travel, clothing, and incidentals) is an estimate of quarterly expenses.

Total Resident Fees	\$779.00
Total Non-Resident Fees	\$2,101.00
Residence Halls	\$430.00-\$640.00
Meals	\$454.00-\$535.00
Books	\$130.00
Lab Clothing and Equipment	\$25.00

The University reserves the right to change its tuition and fees at the beginning of any quarter and without previous notice. This right will be exercised cautiously.

FINANCIAL AID

Students attending the University have nearly half the actual expense of their college education shared by the state of Georgia. Through the tax support of Georgians, The University of

Georgia can offer a quality education economically.

In addition, the University attempts to provide financial help for any student who needs aid and is progressing normally toward graduation. No qualified student need hesitate to apply for financial aid if money is needed to pursue an education in pharmacy.

Information concerning financial aid and work-study for pharmacy students is available through the Office of Student Financial Aid, Academic Building, The University of Georgia, Athens, Georgia 30602.

LOCAL SCHOLARSHIPS AND LOANS

Certain hometown firms and organizations offer scholarships and loans to deserving students. Students are urged to investigate hometown sources of financial aid.

Applications for scholarships and loans should be made as soon as possible since funds are limited and six weeks are required for processing.

Student Activities

PROFESSIONAL ORGANIZATIONS

During their academic career in the College of Pharmacy, students are encouraged to begin to develop interest in professional activities. The primary route by which this interest may be expanded is through the Academy of Students of Pharmacy which is affiliated with both the Georgia and American Pharmaceutical Associations. Active participation in this student function will not only stimulate interest in the profession but develop leadership and character.

Efforts to advance the pharmacy profession educationally, fraternally, and socially led to the installation of chapters of two professional fraternities, Phi Delta Chi and Kappa Psi; a sorority, Lambda Kappa Sigma; and a leadership fraternity, Phi Lambda Sigma. These organizations instill in their members a respect for diligence, sincerity, and brotherhood and assist in developing leadership characteristics. They sponsor activities beneficial to the College, the University, and the profession.

HONOR SOCIETIES

Pharmacy students who comprise the top twenty percent of their class academically may be invited to join Rho Chi, the national honorary pharmaceutical society. The invitation is usually extended during the last quarter of the second professional year. Pharmacy students are also eligible for membership in Phi Kappa Phi national honor society and various leadership societies on campus.

AWARDS

Beginning in 1948 and continuing annually thereafter, the College of Pharmacy has sponsored a banquet at which outstanding academic achievement, leadership and devotion to the profession by students are recognized. These awards may be scholarships, trophies, certificates, books or monetary. By design, the majority of the awards presented at the banquet are to seniors, but some are designated for first and second year students.

Professional Baccalaureate Program

REQUIRED COURSES

First Professional Year

	Hours
ZOO 312-312L Anatomical Basis for Medical Physiology	5
PHR 320 Pharmacy Calculations	3
PHR 324 Introductory Medicinal Chemistry	5
PHR 334 Medicinal Chemistry Laboratory	1
PHR 347-447 Biopharmacy I & II	7
PHR 349-50 Medical Physiology and Pathophysiology I & II	8
PHR 390 Pharmaceutical Law	4
PHR 393 Administrative Pharmacy I	3
PHR 406-7 Pharmaceutics I & II	10

Second Professional Year

MIB 350-350L Microbiology	5
PHR 396 Administrative Pharmacy II	3
PHR 403-4-5 Medicinal Chemistry and Pharmacognosy I, II, III	12
PHR 433-4-5 Pharmacology I, II, III	11
PHR 445 Pharmacology Laboratory	1
PHR 437 Dispensing I	5
PHR 525 Clinical Pharmacokinetics	4
PHR 592 Administrative Pharmacy III	3
PHR 593 Pharmaceutical and Health Care Services	3

Third Professional Year

PHR 500ABCDE Pharmacy Externship	15
PHR 538 Dispensing II	5
PHR 540 Patient Assessment	2
PHR 585 Disease States and Therapeutics	5
Elective(s) (cannot be pass/fail)	21

The statements set forth in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and the institution.

While the provisions of this catalog will ordinarily be applied as stated, the College of Pharmacy reserves the right to change any provision listed in this catalog, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the Office of the Dean. It is especially important that each student note that it is his/her responsibility to keep himself/herself apprised of current graduation requirements for his/her particular degree program.

Course Descriptions

The curriculum includes professional and graduate courses. Professional courses are numbered 300-599, and graduate courses are numbered 600-999.

MEDICINAL CHEMISTRY

Medicinal chemistry is unique among the specialized areas of chemistry and pharmacy in that it requires a significant background in the biological sciences as well as a thorough understanding of chemistry. Areas of specialization for graduate study include the synthesis of new compounds of medicinal interest, the relationships between physical and chemical properties and biological activity, studies on the mechanisms of drug action, and the isolation, purification and identification of the constituents of natural medicinal and poisonous agents.

Baccalaureate Courses

324. Introductory Medicinal Chemistry. 5 hours.
Prerequisite: First Year Pharmacy Student.
Corequisite: PHR 334.

An introduction to the basic principles of inorganic and organic chemistry as they apply to pharmaceutical systems. Discussions concerning physiochemical properties in pharmaceutical and biological systems are presented with emphasis on the nature of the roles played by inorganic and organic compounds on drug activity. Brief discussions of organic nomenclature and drug analysis are also presented.
RUENITZ

334. Medicinal Chemistry Laboratory. 1 hour.
Corequisite: PHR 324.

The principles and techniques of inorganic and organic chemistry are reviewed and applied to pharmaceutical systems.
STAFF

347, 447. Biopharmacy I, II. 4, 3 hours.

Prerequisite: First Year Pharmacy Student.

A study of intermediary metabolism and metabolic regulation. Drug interaction with biochemical systems will be introduced. Use of dietary supplements and drugs in the treatment of nutritional and biochemical abnormalities of pharmaceutical interest will be discussed.
THOMPSON, TAYLOR, W.

403, 404, 405. Medicinal Chemistry and Pharmacognosy I, II, III. 5, 4, and 3 hours respectively.

Prerequisite for 403: PHR 324, 334, 350, 347.

Corequisite for 403: PHR 433

Prerequisite for 404: PHR 403.

Prerequisite for 405: PHR 404, MIB 350-350L.

A study of drugs currently in use, emphasizing the chemical principles related to stability, bioavailability, structure-activity relationship, metabolism and therapeutic use.

HONIGBERG, CHU, BLANTON, THOMPSON

Elective Courses

504. Abused Drugs. 3 hours.

Prerequisite: First year pharmacy student.

A discussion of the history, abuse, uses, effects, and detection of abused drugs.

STEWART

507. Drug Assay. 3 hours.

Prerequisite: First Year Pharmacy Student.

Laboratory exercises in identification of all types of drugs in dosage forms and biological fluids.

STEWART

511. Historical Perspectives of Drug Discovery. 3 hours.

Prerequisite: Second Year Pharmacy Student or P.O.D.*

A study of selected historical events and personalities associated with the discovery of major drugs and drug classes.

HONIGBERG

549. Radio-Pharmaceuticals. 3 hours.

Prerequisite: Second Year Pharmacy Student.

Procedures and techniques involved in the handling and use of radioisotopes in pharmaceutical practice.

DUKE

*Permission of department.

Graduate Courses

713. Advanced Medicinal Chemistry I. 4 hours.
Prerequisite: B.A. or B.S. degree in Biology, Chemistry or Pharmacy, year of organic chemistry.

Lectures on fundamental principles of medicinal chemistry and their applications to the development of today's therapeutic agents. The application of biochemical, pharmacological and medicinal chemical aspects of selected pharmacodynamic agents will also be covered.

STAFF

714. Advanced Medicinal Chemistry II. 4 hours.
Prerequisite: PHR 713.

Lectures covering the application of biochemical, pharmacological and medicinal chemical aspects of selected classes of pharmacodynamic drugs. Historical development of the classes and pharmacological assay techniques will be used to introduce each class. Current state of the scientific exploration of each class will be covered and the future prospectus for new discoveries will be discussed.

STAFF

715. Advanced Medicinal Chemistry III. 4 hours.
Prerequisite: PHR 714.

A study of the discovery, design and synthesis of chemical agents used to treat and cure infectious diseases and cancer. Included are correlations of chemical structure with biological activity, mechanism of action, chemical stability, biochemical transport and identification of biological metabolites.

STAFF

804. Pharmaceutical Control and Analysis I. 5 hours.

Prerequisite: P.O.D.*

Lectures and laboratory instruction are devoted to the separation, identification and analysis of drugs by thin-layer, gas and high-performance liquid chromatographic methods.

STAFF

805. Pharmaceutical Control and Analysis II. 5 hours.

Prerequisite: P.O.D.*

Lectures and laboratory instruction are devoted to the identification and analysis of drugs by proton magnetic resonance, infrared and ultraviolet spectroscopic analysis.

HONIGBERG

806. Pharmaceutical Control and Analysis III. 5 hours.

Prerequisite: P.O.D.*

Lectures and laboratory instruction are devoted to the identification and analysis of drugs by mass spectrometry, fluorescence, phosphorescence and atomic absorption analysis.

STEWART

807. Pharmaceutical Control and Analysis IV. 5 hours.

Prerequisite: P.O.D.*

Lectures and laboratory instruction are devoted to the separation, identification and analysis of drugs and drug metabolites in biological samples.

HONIGBERG

809AB. Topics in Medicinal Chemistry. 4 hours each.

Prerequisite: PHR 715 or P.O.D.*

A detailed study of the correlation of chemical structure with biological activity will be presented with special emphasis on the relation of physicochemical properties to biological response.

STAFF

811. Heterocyclic Medicinal Chemistry. 3 hours.
Prerequisite: CHM 444/644 or P.O.D.*

A course designed for the study of the chemical nature and behavior of the main nitrogen, oxygen and sulfur containing heterocyclic compounds of medicinal significance.

BLANTON

816. Organic Chemistry of Synthetic Medicinal Agents. 3 hours.

Prerequisite: CHM 430/630 and P.O.D.*

Preparation and physicochemical properties of organic medicinal agents of synthetic origin.

RUENITZ

*Permission of department.

PHARMACEUTICS

Pharmaceutics explores and defines the physical and chemical properties of pharmaceutical systems and the mechanisms by which medication from these systems may be made available for utilization by the body. Areas of specialization for graduate studies include pharmaceutics, pharmacokinetics, and industrial pharmacy.

Baccalaureate Courses

320. Pharmacy Calculations. 3 hours.

Three hours lecture weekly.

Prerequisite: First Year Pharmacy Student.

A comprehensive study of the mathematical procedures involved in the practice of pharmacy.

ANSEL, SMITH

406/606, 407/607. Pharmaceutics I, II. 5 hours each.

Prerequisite for 406: PHR 320.

Prerequisite for 407: PHR 406.

Prerequisite for 606: P.O.D.*

Prerequisite for 607: PHR 606.

The general consideration of the underlying principles of dosage form design, compounding, and technology. Laboratory work involves the preparation and evaluation of the various dosage forms and the dispensing of compounded prescriptions.

ANSEL, CAPOMACCHIA, JUN, PRICE

525/725. Clinical Pharmacokinetics. 4 hours.

Prerequisite for 525: PHR 347, 350, 407/607

Prerequisite for 725: PHR 407/607 and P.O.D.*

Clinical Pharmacokinetics deals with the concepts and techniques of the kinetics of absorption, distribution and elimination of drugs as applied to patient care.

JUN, BOUDINOT, GALLO

Elective Courses

522/722. Industrial Pharmacy I. 3-5 hours.

One lecture and six to nine lab hours weekly.

Prerequisite: PHR 407/607; for graduate students: P.O.D.*

Lectures and lab are concerned with the formulation and production of powders, capsules, compressed tablets and coated tablets. Production equipment and quality control procedures and problems are also studied.

PRICE

523/723. Industrial Pharmacy II. 3-5 hours.

Variable lecture and lab hours weekly.

Prerequisite: PHR 407/607; for graduate students: P.O.D.*

To acquaint students with specialized pharmaceutical systems, processes and control procedures involved with liquid, semisolid and aerosol dosage forms.

PRICE

Graduate Courses

720. Drug Development and Regulation. 4 hours.

Prerequisite: Graduate students in the College of Pharmacy, Pharm.D. students.

Processes involved in drug discovery, development, and regulation. Methods of new drug characterization, preclinical and clinical testing, laboratory and manufacturing practice standards, governmental regulations applicable to the drug approval process for marketing, and post-marketing surveillance.

ANSEL

802. Advanced Topics in Pharmaceutics. 1 hour.

Methods of utilizing the literature relating to pharmaceutics and discussion of recent developments in the field.

BOUDINOT, GALLO

823, 824. Advanced Physical Pharmacy. 5 hours each.

Prerequisite: PHR 407/607 or P.O.D.*

Discussion of advanced physical chemical methods as they apply to pharmaceutical problems and phenomena.

BOUDINOT, CAPOMACCHIA, GALLO, PRICE

*Permission of department.

826. Pharmacokinetics I. 5 hours.

Prerequisite: PHR 407/607 or P.O.D.*

A study of the principles of kinetics of drug absorption, distribution and elimination, with emphasis on the design and evaluation of mathematical models.

JUN, BOUDINOT, GALLO

831. Luminescence Spectroscopy in Drug Analysis. 5 hours.

Prerequisite: P.O.D.*

Theory, methods, and instrumentation of chemiluminescence, fluorescence and phosphorescence spectroscopy applied to the trace/microanalysis of drugs and chemicals.

CAPOMACCHIA

836. Pharmacokinetics II. 5 hours.

Prerequisite: PHR 826.

Discussion of advanced pharmacokinetic methods with emphasis on nonlinear pharmacokinetics, model independent pharmacokinetics, protein binding and drug-receptor interactions, computer methodology, physiologic pharmacokinetics and pharmacodynamics.

BOUDINOT, GALLO, JUN

PHARMACOLOGY AND TOXICOLOGY

Pharmacology is the study of the action of drugs and chemicals on the living organism, the effects induced, and their therapeutic applications, whereas toxicology emphasizes the deleterious effects of chemicals on body organs and systems. As scientific disciplines, these related areas are based in the physical and biological sciences with particular emphasis on physiology and chemistry. Graduate studies and research areas are available in neuro-pharmacology, behavioral pharmacology, biochemical pharmacology, cardiovascular pharmacology, environmental and drug toxicology, and chemical carcinogenesis.

Baccalaureate Courses

349, 350. Medical Physiology and Pathophysiology I, II. 4 hours each.

Prerequisite: ZOO 312-312L or P.O.D.*

A study of human function in health and in common disease states, emphasizing organ and system interactions.

BUNCE, REIGLE, HARTLE, GREENSPAN

433/633, 434/634, 435/635. Pharmacology I, II, III. 4, 3, and 4 hours respectively.

Prerequisite for 433/633: PHR 350.

Prerequisite for 434/634: PHR 433/633.

Prerequisite for 435/635: PHR 434/634.

Corequisite for 433/633: PHR 403.

For graduate students: P.O.D.*

A study of the pharmacologic action, therapeutic application, and toxicology of drugs in current use. The drug categories included in PHR 433/633 are antihistamines, diuretics, endocrine hormones and related drugs. Categories included in PHR 434/634 are autonomic, anticoagulant, and cardiovascular drugs. PHR 435/635 is devoted to central nervous system active drugs.

ITURRIAN, REIGLE, TACKETT

445/645. Pharmacology Laboratory. 1 hour.

One three-hour laboratory each week.

Corequisite: PHR 435/635.

Experiments designed to demonstrate the action of CNS, autonomic and cardiovascular drugs.

TACKETT

Elective Courses

491/691 (VPH). Introductory Toxicology. 5 hours.

Prerequisite: BCH 402/602 or BCH 802 or equivalent; and PHR 350 or VPH 516 or equivalent; and P.O.D.*

This course is an overview of basic principles in the field of toxicology. It includes principles of hazard and safety evaluation, dose-response relationships, pharmacokinetics and metabolism of chemicals, basic mechanisms of cellular injury, factors influencing toxicity, specialty areas and governmental regulatory policies.

BRUCKNER, HATCH

*Permission of department.

584. Toxicology of Commercial Products. 3 hours.

Prerequisite: PHR 433/633.

A study of the toxic mechanisms, toxic syndromes, antidotes, and emergency and supportive therapy for poisonings with commonly occurring household and farm products.

ITURRIAN

Graduate Courses

649. Human Physiology I. 5 hours.

Prerequisite: BIO 103-103L, CHM 241 and 241L, and P.O.D.*

Not open to students with credit for PHR 349. Functions of the human nervous, neuromuscular and digestive systems in health and in major disease states.

BUNCE

650. Human Physiology II. 5 hours. Four lectures and one discussion period.

Prerequisite: BIO 103-103L, CHM 241 and 241L, or P.O.D.*

Not open to students with credit for PHR 350. Function of the human cardiovascular, respiratory, renal, endocrine, and reproductive systems in health and in major disease states.

REIGLE, HARTLE

800 VPH (PHR). Cardiovascular Physiology. 3 hours.

Prerequisite: VPH 609 or P.O.D.*

Advanced study of current concepts in cardiovascular physiology.

STAFF

842. Cardiovascular Pharmacology. 5 hours.

Prerequisite: PHR 434/634 or P.O.D.*

A study of physiological control mechanisms of the mammalian cardiovascular system and how defects may lead to clinically identifiable disease states. Experimental approaches are evaluated and the actions of pharmacologically active agents are discussed.

HARTLE, TACKETT

843. Advanced Neuropharmacology. 4 hours.

Prerequisite: PHR 435/635 or P.O.D.*

A study of the behavioral and neurochemical aspects of drug action in the central nervous system.

ITURRIAN, REIGLE

844. Methods in Pharmacological Research. 5 hours.

Prerequisite: PHR 433/633 and STA 421/621 or P.O.D.*

A review of classical and biochemical methods used in evaluating compounds for their pharmacologic activity.

STAFF

846 (VPH). Molecular Pharmacology. 5 hours.

Prerequisite: P.O.D.*

A detailed study of (a) the interaction of drugs with tissue receptors, and (b) the absorption, distribution, metabolism and elimination of drugs by the organism. (Spring quarter of even-numbered years.)

TACKETT

891A (VPH/PS). Organ Systems Toxicology I. 5 hours.

Not open to students with credit in PHR(VPH/PS) 891.

Prerequisite: PHR 649 and 650 or VPH 609-609L and 610-610L or equivalent or PHR 433/633, 434/634, and 435/635 or equivalent and BCH 801 and 802 or equivalent or P.O.D.*

A study of mechanisms by which toxic chemicals alter biochemical and physiological processes in the following organ systems of the body: blood, immune system, respiratory system, cardiovascular system, and nervous system.

WYATT, EVANS, DALLAS, TACKETT, BOWEN

891B (VPH/PS). Organ Systems Toxicology II. 5 hours.

Not open to students with credit in PHR (VPH/PS) 891.

Prerequisite: PHR 649 and 650 or VPH 609-609L and 610-610L or equivalent or PHR 433/633, 434/634, and 435/635 or equivalent and BCH 801 and 802 or equivalent or P.O.D.*

A study of mechanisms by which toxic chemicals alter biochemical and physiological systems in the following organ systems of the body: liver, kidney, reproductive system, and skin and eye. The carcinogenic and mutagenic activity of chemicals will also be described.

BRUCKNER, SCHNELLMANN, BRACKETT, BUNCE

*Permission of department.

892 (VPH/ENT/PS). Toxicology of Agricultural and Industrial Chemicals in the Environment. 5 hours.

Prerequisite: PHR(VPH) 491/691 or P.O.D.*

A study of the dynamics and toxicity of some of the major agricultural and industrial contaminants of the environment. The focus is on sources, properties, toxicodynamics, health and environmental hazards, methods of analysis and contamination control measures.

BRUCKNER, SCHNELLMAN

PHARMACY CARE ADMINISTRATION

Pharmacy care administration is concerned with both the administrative aspects of pharmacy practice and the pharmacist's role in serving the patient's health needs. To accomplish these purposes, undergraduate study in this area includes: community and institutional pharmacy management, pharmacy law, health care systems, and patient behavioral topics. Graduate studies are offered in pharmacy care administration with two options available for the students.

Baccalaureate Courses

390. Pharmaceutical Law. 4 hours.

Prerequisite: First Year Pharmacy Student.

A review of the various laws involved in pharmaceutical prescription practice and a study of the state and federal regulations including organization enforcement procedures. Consideration is also given to case histories involving negligence and malpractice.

JANKEL

393. Administrative Pharmacy I. 3 hours.

Prerequisite: First Year Pharmacy Student.

A study of the form, content, nature and use of financial statements. In addition, the student is provided an explanation of the accounting process of which the financial statements are the result.

McMILLAN

396. Administrative Pharmacy II. 3 hours.

Prerequisite: PHR 393.

The application of managerial principles to the professional practice of pharmacy.

PERRI

*Permission of department.

592. Administrative Pharmacy III. 3 hours.

Prerequisite: PHR 393.

Advanced study of managerial and financial principles relating to pharmacy practice in corporate and hospital situations. Microcomputer-assisted financial analyses are provided through simulation in pharmacy management.

KOTZAN

593/793. Pharmaceutical and Health Care Services. 3 hours.

Prerequisite: PHR 390.

A study of the principles and methods involved in the rendering of pharmaceutical and health care services. Included are the social, economic, legal and professional aspects and the study of the activities of providers and consumers of such services.

STAFF

Elective Courses

590. Pharmacy Ethics. 3 hours.

Prerequisite: First Year Pharmacy Student.

This course deals with the problems faced by the community pharmacist as he/she strives to strike a balance between the demands of economic competition on the one hand and the demands of professional ethics on the other.

STAFF

Graduate Courses

853. Research in Pharmacy Care Administration. 5 hours.

Prerequisite: STA 421/621.

An intensive study of research and methods of research in pharmacy care administration. The course includes the design, execution and statistical analysis of experiments relating to physicians, pharmacists, or drug consumers.

McMILLAN

860. Topics in Pharmaceutical Marketing. 4 hours.

Prerequisite: MBA student status.

The course examines the structure of the pharmaceutical industry, the environment in which it operates, and special problems it faces in marketing its products to prescribers, pharmacists, health care institutions, and consumers.

PERRI

861. Health Care Systems. 4 hours.

Prerequisite: MBA student status.

A comprehensive examination of the United States Health Care System, the distribution of health care facilities, and the various programs, both public and private, designed to improve the quality and distribution of health care services.

STAFF

862. Management Methods in Pharmacy. 4 hours.

Prerequisite: MBA student status.

An intensive study of analytical methods peculiar to data sources and management problems in the pharmaceutical industry. Interpretation of pharmaceutical data bases, and report preparation are integral portions of the course. For MBA and Pharmacy graduate students.

JANKEL

PHARMACY PRACTICE

Pharmacy practice offerings are designed as capstone courses to integrate and apply all prior course material to the assessment of patient problems, prescription practice and communication of knowledge to both prescriber and patient at professional baccalaureate and doctoral levels. The Doctor of Pharmacy curriculum is intended to further prepare the student for specialized practice and applied research in ambulatory, long term or acute care settings in addition to preparing the student for career opportunities in industry, government, and academia.

Baccalaureate Courses

437. Dispensing I. 5 hours.

Four hours lecture and three hours lab weekly.

Prerequisite: PHR 390, 404, 407, 434/634, 447.

An integration of pharmaceutical sciences and pharmacy practice. The procedures and precautions necessary in providing pharmaceutical and drug information services in the community pharmacy and in institutional settings. Special emphasis is placed on drug literature, interactions, product selection and therapy.

COBB, McCOMBS, THOMAS, GALLO, D., WARREN

500ABCDE. Pharmacy Externship. 5 hours each, 15 hours (three courses) required.

At least 40 hours per week for 12 weeks.

Prerequisite: PHR 540, 585/785.

An integrated course applying all prior material into pharmacy practice. Experience will be obtained in community, hospital and clinical rotations at selected extramural practice sites. The student should check with the Department for the regulations concerning this course series. McCOMBS AND STAFF

538. Dispensing II. 5 hours.

Four hours lecture and three hours lab weekly.

Prerequisite: PHR 435/635, 437.

A relationship of factual and conceptual knowledge to prescription practice material emphasizing the most common drug-related problems. Development of a concept of the significance of these problems and formulation of problem anticipation approach for the pharmacy in community and institutional practice. A review of significant regulatory changes is included.

COBB, COOPER, GALLO, D., THOMAS

540. Patient Assessment. 2 hours.

Prerequisite: PHR 435/635, 437.

An introduction to physical and laboratory assessment of the patient and patient survival management.

MORTON, PARKER

585. Disease States and Therapeutics. 5 hours.

Prerequisite: PHR 435/635.

A discussion of disease states with emphasis on procedures involved in restoring the patient to normal health.

PARISH, SPRUILL, McCALL, WADE

Elective Courses

508. Parenteral Therapy. 3-5 hours.

Prerequisite: PHR 350, 434/634, 447, or P.O.D.*

Procedures for establishing and administering an IV admixture service, technical aspects of compounding and administering parenteral preparations and the principles of patient care, e.g., principles involved in diagnosis of imbalance, prescribing effective parenteral therapy and monitoring results.

COBB

*Permission of department.

510. Women's Health Care. 3 hours.

Prerequisite: PHR 349, 350 and second year pharmacy student.

This course emphasizes patient education of the medication and over-the-counter products used in obstetrics and gynecology.

McCOMBS

512/712. Survey of Clinical Drug Therapy in the Elderly. 3 hours.

Prerequisite: Senior pharmacy student, graduate student, gerontology certificate student, P.O.D.*

A survey course on the use of drug therapies in a nursing home. Using clinical cases and direct patient contact, the student will develop a broad understanding of medical problems and their treatment.

LONGE

524. Institutional Pharmacy. 3 hours.

Prerequisite: Third year pharmacy student; graduate students by P.O.D.*

A study of the history, organization, structure, and operational policies and procedures of various types of health care institutions. Consideration is given to the pharmaceutical services rendered in hospitals, extended care facilities, and nursing homes.

WARREN

560. Clinical Seminar. 3-5 hours. May be repeated for a maximum of 20 credit hours.

Prerequisite: Third year pharmacy student; graduate students by P.O.D.*

Lectures involve clinical case presentations including aspects of etiology, pathology, prognosis and treatment of disease. Laboratories involve teaching rounds and case work-up at local hospitals.

STAFF

570. Clinical Clerkship. 3-5 hours. May be repeated for a maximum of 20 credit hours.

Prerequisite: Third Year Pharmacy Student; for graduate students: P.O.D.*

The clerkship involves instruction in pharmacy practice in a clinical setting under the direct supervision of a professional practitioner. Clerkships are available in a number of community and institutional settings.

STAFF

594. Prescription Accessory Products. 3 hours.

Prerequisite: Second Year Pharmacy Student.

A study of accessory products related to prescriptions, sickroom needs, rehabilitation and convalescent equipment, surgical supports and other health-related appliances.

MEUNIER, THOMAS

595. Household and Animal Health Products. 3 hours.

Prerequisite: Second Year Pharmacy Student.

The study of fumigants, rodenticides, insecticides, fungicides, weedicides, parasiticides and toxins, serums, vaccines, and related products commonly sold in the drugstore. Ethics, economic and legal aspects will be stressed.

KEMP, McCONNELL

DOCTOR OF PHARMACY CURRICULUM

550. Physical Assessment. 3 hours.

Prerequisite: PHR 540.

Advanced techniques of physical assessment of drug and disease effects.

LONGE

552. Advanced Drug Information. 4 hours.

Prerequisite: Admission to Pharm.D. program.

Practical methods of retrieval, analysis and elucidation of drug information will be presented.

MAY

554AB. Applied Pharmacokinetics and Drug Analysis. 3 hours each.

Prerequisite for 554A: Admission to Pharm.D. program.

Prerequisite for 554B: PHR 554A.

Application of pharmacokinetic principles to design a dosing regimen, new drug evaluation, and analytical technique selection and evaluation.

WADE, COBB, STEWART AND STAFF

555. Clinical Conference. 1 hour. May be repeated for a maximum of 6 credit hours.

Prerequisite: Admission to Pharm.D. program.

Presentation of patient case and pertinent literature in grand rounds fashion.

BENSON, PARISH

*Permission of department.

572ABCDEF. Advanced Clerkship II. 5 hours each.

Prerequisite: PHR 552, 554B, 589.

Clinical practice in outpatient and inpatient settings; externship in community and hospital pharmacy settings. This course will satisfy PHR 500 requirements for Pharm.D. tracking students.

TAYLOR, DiPIRO, LONGE, HAWKINS, MAY, McCOMBS AND STAFF

573ABC. Advanced Clerkship III. 5 hours each.

Prerequisite: PHR 552, 554B, 589.

Clinical practice in inpatient and outpatient settings.

STAFF

587, 588, 589. Advanced Therapeutics and Pathophysiology I, II, III. 6 hours each.

Not open to students with credit in PHR 561.

Prerequisite for 587: PHR 538, 585.

Prerequisite for 588: PHR 587

Prerequisite for 589: PHR 588

Advanced pathophysiologic and pharmacotherapeutic principles and concepts applied to human disease states and conditions.

STAFF

Pharm.D. Elective Courses

528. Clinical Epidemiology. 3 hours.

Prerequisite: Admission to Pharm.D. program.

Scientific basis for making and evaluating clinical decisions regarding normality/abnormality, diagnosis, risk factors, prognosis, treatment, prevention, and causation.

HAWKINS

551. Seminar in Medical Care Problems. 1 hour.

Prerequisite: Admission to Pharm.D. program.

An orientation to medical care problems for the doctor of pharmacy student.

LONGE

574. Pharmacy Problem Solving I. 5 hours.

Prerequisite: Admission to Pharm.D. program.

A comprehensive presentation of basic research methods, study design, pilot and feasibility studies and techniques of evaluation and justification applied to patient situations.

PARISH AND STAFF

577, 578, 579. Doctor of Pharmacy Project I, II, III. 1 hour each.

Prerequisite: Admission to Pharm.D. program.

This sequence of courses requires: preparation of an acceptable project proposal (577); collection and evaluation of data (578); and both oral and written presentation of an acceptable report (579).

STAFF

580. Clinical Toxicology. 3 hours.

Prerequisite: Admission to Pharm.D. program.

General toxicologic management principles, as well as specific treatment approaches to selected poisons. Mechanisms of toxicity, expected clinical course, and appropriate therapy will be emphasized.

BENSON

INTERDEPARTMENTAL COURSES

Elective Courses

498H. Directed Study and/or Projects (Honors). 5 hours each.

Prerequisite: Honors Student in Pharmacy.
This course affords Honors students the opportunity to engage in individual study, reading or projects under the direction of a project director.
STAFF

499H. Honors Thesis. 5 hours.

Prerequisite: Honors Student in Pharmacy.
This course provides the opportunity for an Honors student to undertake individual research in the field of his/her major or in a closely related field.
STAFF

521/721. Special Topics in Pharmacy. 3-5 hours.
May be repeated for a maximum of 20 credit hours.

A study of specialized pharmaceutical systems, processes and techniques, including assignment of current literature and student presentations.
STAFF

598. Undergraduate Research Problem. 3-5 hours. May be repeated for a maximum of 20 credit hours.

Prerequisite: Second Year Pharmacy Student.
An introduction to research. The course is designed to acquaint the student with the techniques of research. A problem will be assigned, and the student will be expected to do library and lab work necessary to prepare an acceptable report.
STAFF

Graduate Courses

700M. Master's Research. 1-15 hours.

Prerequisite: P.O.D.*
Research while enrolled for a master's degree under the direction of a faculty member.
STAFF

730M. Master's Thesis. 1-15 hours.

Prerequisite: P.O.D.*
STAFF

803. Pharmacy Seminar. 1 hour. May be repeated for a maximum of 5 hours.

Prerequisite: Graduate student.
Semi-formal meetings for discussion of research and new developments in the field.
STAFF

900D. Doctoral Research. 1-15 hours.

Prerequisite: P.O.D.*
Research while enrolled for a doctoral degree under the direction of a faculty member.
STAFF

930D. Doctoral Dissertation. 1-15 hours, repeatable for maximum 50 credit hours.

Prerequisite: P.O.D.*
STAFF

Required Non-Pharmacy Courses

The following courses in the pharmacy curriculum are taught by the faculty of the College of Arts and Sciences. A description may be found in the College of Arts and Sciences section of *The University of Georgia Undergraduate Bulletin*.

MIB 350-350L. Introductory Microbiology. 5 hours.

ZOO 312-312L. Anatomical Basis for Medical Physiology. 5 hours.

*Permission of department.

Inquiries and requests for information and application forms should be addressed as follows:

*Office of the Dean
College of Pharmacy
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-5278*

Information about graduate programs:

*Graduate Coordinator
College of Pharmacy
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-5417*

Housing for single students:

*Department of University Housing
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-1421*

Housing for married students:

*Family Housing Office
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-1473*

Payment of fees and deposits:

*Treasurer's Office
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-1625*

Scholarships and loans:

*Office of Student Financial Aid
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-6147*

Admissions:

*Office of Undergraduate Admissions
The University of Georgia
Athens, Georgia 30602
Telephone: (706) 542-2112*
