

PROGRAM DESCRIPTION

The UGA Graduate Certificate is a one-year program, which enhances residency program experiences to foster excellence in clinical training and scholarship. All UGA and UGA-affiliated residencies participate. Upon successful completion of the program, residents will be awarded a Graduate Certificate in Clinical Pharmacy in addition to the residency certificate.

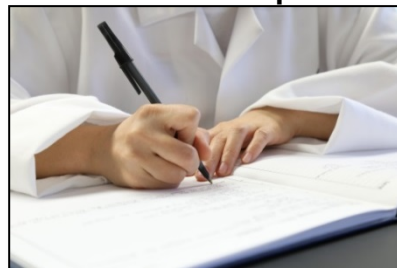

BENEFITS TO THE RESIDENT

- Unique training experience
- Graduate School credit earned during residency training
- Diverse electives to meet varied interests
- Opportunity to work with UGA faculty on research and teaching
- Experience in a multi-disciplinary, multi-program educational environment
- Opportunity for funded TL1 Master's in Translational Science

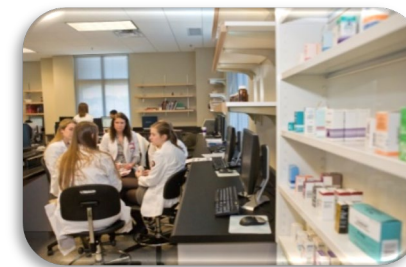

PROGRAM MISSION

To improve the health and well-being of individuals and society through excellence and leadership in direct patient care, teaching, and scholarship

PROGRAM GOALS

- Enhance academic rigor of training
- Foster excellence in teaching in pharmacy
- Promote advanced study in a graduate program
- Provide an official graduate school record of accomplishment upon successful completion of program
- Produce graduates who are "scholarly clinicians"

GRADUATE PROGRAM COURSES

Certificate courses encompass residency experiences (e.g., Direct Patient Care, Teaching & Research). With approval of your Program Director, you may also enroll in a wide-range of elective courses that meet your individual interests and learning objectives.
