

What to Do in the Event of a Tornado Warning—Augusta Campus

Dear Augusta College of Pharmacy Faculty, Staff, and Students,

At the Augusta campus, in the event of a tornado warning amidst the COVID-19 pandemic, please proceed calmly to the nearest shelter area. While waiting for the all clear, wear your face coverings and practice social distancing. As shelter areas fill and social distancing is not possible, please remain calm and make room for others. Below is a list of shelter areas in the HM building. A tornado warning should be heeded with as much urgency as you would a fire alarm. Classes are not to continue during tornado warnings, even if the classroom being used is listed as a shelter area, as others may need to move into these rooms to find shelter.

Augusta Shelter Areas

HM-135 Classroom

HM-139 Classroom

HM-149 Skills Lab

HM-143, 145, 125

Bathrooms

HM-115 Becky Office
