ARE YOU EXPERIENCING ANY SYMPTOMS OF COVID-19 OR DO YOU HAVE A POSITIVE TEST RESULT FOR COVID-19?

*At a minimum, experiential site policies will be followed. Any more stringent site policies will supersede the below.

**YES**
I have symptoms and/or a positive test.

1. Do not report to your site. Contact your Regional Coordinator and preceptor immediately to determine next steps.
2. In the interim, follow CDC Guidelines to stay home, separate yourself from other people, monitor symptoms, and get tested if you haven’t already.
3. ALL POSITIVE TESTS must be reported in DawgCheck, to Dr. Do, and to your Regional Coordinator immediately (*this includes during vacation blocks and scheduled breaks).

Regional Coordinator will:
- Work with student and preceptor/site to determine when student can be cleared to return based on site policies.
- Work with preceptor to ensure any missed time is adequately made up.

**NO**
I DO NOT have symptoms or a positive test.

Have you been in close contact with someone who has been diagnosed with or tested positive for COVID-19?

**NO**

1. Do not need to quarantine.
2. Follow prevention measures.
   - Wear a mask.
   - Social distance.
   - Avoid crowds.
   - Wash hands frequently.
3. Should get tested 3-5 days after exposure.

**YES**

Are you fully vaccinated?

**YES**

1. Contact your Regional Coordinator and preceptor immediately to determine next steps.
2. Monitor for symptoms.
3. Site policies will be followed.

**NO**

1. Do not need to quarantine.
2. Follow prevention measures.
   - Wear a mask.
   - Social distance.
   - Avoid crowds.
   - Wash hands frequently.
3. Should get tested 3-5 days after exposure.

Regional Coordinators
- Atlanta: Mindi Miller (millerms@uga.edu)
- Augusta: Dianne May (dimay@augusta.edu)
- Columbus/Northeast GA: Lindsey Welch (Ihwelch@uga.edu)
- Savannah: Misha Watts (MThomaso2@uga.edu)
- Southwest GA: Melody Sheffield (rx@uga.edu)

Individuals are considered fully vaccinated 2 weeks after their second shot in a 2-dose series (e.g., Pfizer or Moderna vaccines) or 2 weeks after a single-shot vaccine (e.g., Johnson & Johnson’s Janssen vaccine).
