Decision Tree
Instructor Response to COVID-19 Case

If a student in a class you are teaching
- Is experiencing symptoms consistent with COVID-19 OR
- Learns they have a positive test result for COVID-19

Instructor should send student home and notify the student they will not be allowed to attend class in-person until cleared to return.

Instructor should recommend student follow Decision Tree for College of Pharmacy Students recommendations.

Instructor should communicate with course coordinator and Campus Contact.

Campus Contact will:
- Communicate with COP COVID-19 Operational Leadership Team (COLT) to determine if further action is needed (i.e., additional reporting, facility cleaning). The primary COLT contact for instructional matters is Dr. Do.
- Work with student to determine when return-to-campus criteria are met and the student can be cleared to return.
- Notify course coordinator/appropriate faculty when student is eligible to return to campus.

If a student in a class you are teaching learns they have had close contact with someone who has been diagnosed with or tested positive for COVID-19, then recommend student follow Decision Tree for College of Pharmacy Students.

Close contact is defined as being within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.

Campus Contacts
- Athens: Duc Do (duc.do@uga.edu)
- Albany/Augusta/Savannah: Rusty May (jmay@augusta.edu)
