The rapidly expanding biomedical industries necessitate a greater number of Regulatory Affairs Professionals to manage the FDA approval process of new products and maintain regulatory compliance. Specialized and convenient education is crucial for professionals to gain an understanding of the scientific and technical backgrounds of new products. This certificate program provides an introduction to regulatory sciences.

This program plan is ideal for working professionals and consists of 14 semester credit hours, delivered by internet-based instruction with occasional live sessions. The Regulatory Sciences Graduate Certificate coursework can be applied toward the UGA Master of Science degree program with an emphasis in Regulatory Sciences.

UGA’s educational program for Regulatory Sciences professionals covers:

- Pharmaceutical
- Biologics
- Medical Devices
- Veterinary Products
- Combination Products

rx.uga.edu/departments/academic/ibr
The Regulatory Sciences Certificate Program allows students to take classes part-time and complete the Graduate Certificate Program in one academic year (including summer semester).

14 TOTAL SEMESTER HOURS

Course topics include:
