PROFESSIONAL EXPERIENCE

Dean

August 2018 to present

University of Georgia College of Pharmacy

Lead a flagship college of pharmacy. Educational portfolio of bachelors, professional (PharmD), online masters, traditional masters, online graduate certificate, pharmacy residency and PhD education and training programs across 5 campuses, with enrollment of ~900 and ~7,400 living alumni. Research portfolio, ranging from drug discovery to outcomes and policy, approaching \$5M in external grants. ~\$20M endowment. 90 faculty.

Associate Dean, Academic and Student Affairs

2009 to 2015,

University of Kentucky College of Pharmacy

2016 to 2018

Lead a 10-member unit to support the entire student life cycle, from recruitment through graduation, for ~550 PharmD students. Shrink the university experience for students to provide in-house registrar and financial aid functions, academic success, career and personal support. Conduct all formal academic and professional events and support student life. Ensure adherence to growing regulatory, legal and ethical commitments to diversity, inclusion and valuing the individual. On-time graduation rate of 93%. Key initiatives include:

- Developed the college's first strategic plan within an administrative unit
- Created an enrollment management model with formally trained professional staff in anticipation of the national decline in student applications, including: targeted recruiting, holistic admissions, multiple mini interview evaluations, and strategic scholarship offerings
- Integrated relational recruiting with strategic communications, applicant tracking, and forecasting to double the diversity of the student body
- Developed and implemented degree continuation programs (i.e., 3+4 agreements) with feeder schools to enable undergraduates to apply pharmacy school coursework to meet BS degree requirements
- Expanded dual degree and graduate certificate offerings to further enhance value of PharmD program
- Established tuition management strategies to mitigate student burden, including annualized tuition billing to remove offsets for experiential education and tuition discounts for selected non-resident applicants
- Envisioned and reframed the student affairs component to provide holistic student support and longitudinal career preparedness, creating the university's first Director of Student Success and Career Development position
- Implemented structured approach to key committee activities and unit functions, including academic performance monitoring and student petitions, scholarship administration, honors and award recognition distribution, student honor code
- Developed first formalized approach to supporting and managing official student organizations and corresponding advisor capacity / support, along with process to track and monitor adherence with university risk management policies
- Reframed the student onboarding continuum to meet the changing curriculum
- Expanded student support services to the graduate degree program
- Invested in the professional development of Director-level staff, with one becoming a national leader in enrollment management and another receiving a top university employee award

Interim Dean

March 2015 to

University of Kentucky College of Pharmacy

October 2016

Led Top 6 (US News & World Report ranking) college of pharmacy. ~140 professional students per class with first-time board pass rate 10% above national average and residency match rates exceeding national average by 28%. Graduate program of ~70 students. ~\$26.5M faculty-generated collaborative research funding. Key initiatives included:

- Conducted self-study and received full cycle (8-year) ACPE accreditation
- Developed and implemented initial phases of new PharmD curriculum
- Concluded planning and initiated priority elements of the college's strategic plan

- Elevated national ranking for external research funding, created role for Assistant Dean for Translational Research, launched year-long strategic focus on cultivating research partnerships
- Partnered with Markey Cancer Center to create and hire Phase I Director / Molecular Tumor Board Co-Director, hired 5 additional faculty, relaunched search for Endowed Chair in Pharmacogenomics
- Initiated student-centric graduate program revision, appointed new Director of Graduate Studies
- Created university's first quasi-endowment to support a collegiate center, solicited new donor gifts as precursors to estate gifts, conducted college's first review of endowed professorships
- Collaborated with professional degree colleges to develop outcomes-based funding model for elevating diversity in the student body
- Recruited new Director of Alumni and External Relations, developed external communications strategic plan, implemented new website design, created signature event to enhance relationships with young alumni and corporate partners
- Hired new Director of Human Resources, implemented staff/faculty development program, completed second phase implementation of the collegiate budget office

Diversity and Inclusivity Co-Officer

2016 to 2018

University of Kentucky College of Pharmacy

Serve as one of two designated college-level officers to collaborate with college leadership, Provost, and Vice President for Institutional Diversity to achieve key features of college and university strategic plan. Develop initiatives and programs to support equitable opportunities for prospective and current students, staff and faculty. Co-chair the college's inaugural Task Force on Diversity and Inclusion. Key initiatives include:

- Mentor the faculty chair of newly created Task Force on Diversity and Inclusion, which has been charged to develop tactical initiatives to increase diversity and build a culture of inclusion
- Engage all faculty and staff in key training efforts, including unconscious bias initiative, best hiring practices for search committees
- Identify internal and external factors that may detract from the college's values and goal of fostering a diverse and inclusive environment, with recent development of a college crisis management team
- Advised Dean in development of faculty retreat to focus on enhancing equity and inclusion in the student body experience

Assistant Dean, Student Affairs

2008 to 2009

University of Kentucky College of Pharmacy

Led the programming, guidance and advising delivered to students upon enrollment through graduation. Registrar and academic record verification, classroom scheduling, and instructional space maintenance and oversight. 3-member unit. Key initiatives included:

- Evaluated long-standing office practices to identify efficiencies and evolving needs, resulting in enhanced use of technology, development of routine policies and standard operating procedures, and enhanced communications to external constituents
- Stewarded the development, approval and implementation of a new dual degree program
- Developed procedure to evaluate applications for new student organizations
- Created protocol to conduct criminal background checks and urine drug screens for students upon matriculation and prior to entering experiential education courses
- Implemented pilot program for student peer tutoring

Director, Residency Program Advancement

2007 to 2012

University of Kentucky College of Pharmacy

Proposed and implemented a formalized role to coordinate the college's academic, service and scholarly efforts in residency training. Served as a consultant to practice sites exploring the development of residency training. Strengthened existing programs. Promoted the role of residency training in student career development. Key initiatives included:

- Fostered the development of new, accredited pharmacy residency programs across Kentucky, resulting in 100% growth in number of new programs; program functions now delivered by the college's Office of Professional Practice Development
- Launched the Kentucky Pharmacy Residency Network, the country's first statewide collaboration designed to foster and support pharmacy residency training, which is now facilitated by the Kentucky Society of Health-System Pharmacists
- Created student residency preparatory programming that spawned the Advanced Pharmacotherapy Gateway Certificate
