

If the Media Calls...Call Mickey!

We've seen an increase in the number of calls from the media looking for experts to be interviewed about the COVID-19 environment. These are great exposure opportunities for our college, and we don't want to pass them up! However, if a member of the media contacts you, PLEASE contact [Mickey Montevideo](mailto:mickey.montevideo@uga.edu) (706-540-6454/706-542-5303) FIRST before you conduct the interview. Depending on the report, subject or media outlet, she will likely be aware of any nuances involving the interview. In addition, UGA requires this protocol. We appreciate your support and cooperation in this matter.
