Learning Objectives for Pharmacy Grand Rounds

- Upon completion of this activity the participant will be able to:
1. Identify contemporary issues in pharmacy practice from information presented by pharmacy residents, preceptors and clinical faculty.
 2. Compare and contrast published, peer reviewed research, research in progress, and special projects conducted to investigate problems and challenges in pharmacy practice and/or pharmaceutical sciences.
 3. Describe the role of the pharmacist in health care, disease state management, new and existing drug therapies, and/or management of pharmacy practice.
- This knowledge-based activity is intended for UGA College of Pharmacy faculty, preceptors, and students and is approved for 1 hour of continuing pharmacy education

Sponsored by the University of Georgia College of Pharmacy. The University of Georgia College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. UAN 0014-9999-20-053-L01-P
