

**UNIVERSITY OF  
GEORGIA**  
College of Pharmacy

**Admission Procedures – Doctor of Pharmacy Program**

*Updated June 2024*

**I. REQUIREMENTS**

**1. Prerequisite Courses**

- a. Applicants to the Doctor of Pharmacy (Pharm.D.) professional program must complete 69 credit hours of prerequisite courses. The complete list of courses comprising these 69 credit hours can be found on the University of Georgia College of Pharmacy website ([Pre- Pharmacy Course Checklist](#)).
- b. Applicants must earn a grade of C- or higher in each of the prerequisite courses.
- c. At least 50 percent of the required prerequisite credit hours (35 hours) must be completed before an applicant can be considered for admission, and the applicant must be able to complete all prerequisite courses with a grade of C- or higher prior to beginning the Pharm.D. program.
  - a. Applicants can only take two courses the summer prior to matriculation (Maymester or summer sessions).
- d. Advanced Placement (AP), International Baccalaureate (IB) credit, dual enrollment courses, and online courses from accredited institutions can be used to fulfill prerequisite coursework; CLEP credit cannot be used to fulfill prerequisite coursework.
- e. When a student repeats a prerequisite course, all grades earned in that course will be used in calculating the prerequisite grade point average (GPA), even if your institution practices grade forgiveness.
- f. International applicants are required to complete at least of 50 percent of the prerequisite credit hours (including both English composition courses) at an accredited college or university in the United States.
- g. Applicants should have a preferred prerequisite GPA of 2.5 or higher. When all prerequisite courses are completed, applicants must have a minimum GPA of 2.0 to be admitted. For Fall 2023, students admitted into the Pharm.D. program had an approximate average GPA for the prerequisite courses of 3.46.

**2. Pharmacy College Admission Test (PCAT)**

- a. The PCAT is no longer offered by the test provider and so taking the PCAT is no longer an option available to applicants. If an applicant has taken the PCAT in the past, it is not required they submit past PCAT scores when applying to our program.

### 3. Evaluations (Recommendations)

- a. Applicants must arrange to have at least two (and a maximum of four) evaluations submitted supporting their applications. One of the recommendations should be from a college instructor familiar with the applicant's academic background; another should be from a health care professional, preferably a pharmacist supervisor/mentor, who can address the applicant's potential in the pharmacy profession.
- b. We do not accept letters from family members, members of the clergy, personal friends, or politicians.
- c. Evaluations must be sent directly to PharmCAS; evaluations sent to the UGA College of Pharmacy will not be accepted.

## II. PROCESS

### 1. Applications

- a. Applicants must apply through the national Pharmacy College Application Service (PharmCAS). Transcripts for all college-level coursework and evaluations (recommendations) must be submitted to PharmCAS, not directly to the College of Pharmacy. Information on PharmCAS can be found at the [PharmCAS Website](#).
- b. Applicants also must submit a University of Georgia College of Pharmacy Supplemental Application, including payment of a \$55 non-refundable application fee. However, those applicants who submit both their PharmCAS application and University of Georgia College of Pharmacy Supplemental Application by the Priority Deadline (December 2, 2024) will be eligible to waive the University of Georgia College of Pharmacy Supplemental Application fee. The Supplemental Application is available on the College of Pharmacy website ([UGA Pharm.D. Supplemental Application](#)).
- c. The PharmCAS and UGA College of Pharmacy applications opens on July 11, 2024 and the final deadline is June 2, 2025. Individuals may submit applications anytime between those dates. The UGA College of Pharmacy employs a rolling admissions process. With rolling admissions, we will review applications, invite candidates to campus to interview, and offer acceptances throughout our admissions process. This means that interested applicants should submit their PharmCAS and University of Georgia College of Pharmacy Supplemental Applications as early as possible.
- d. The admissions application process has two different deadlines: Priority Deadline and Application Deadline.
  - a. The Priority Deadline is December 2, 2024. Applicants who submit both their PharmCAS and University of Georgia College of Pharmacy application by December 2, 2024 will be eligible to waive their University of Georgia College of Pharmacy Supplemental Application fee and be given priority consideration for scholarship consideration and for 2+2 campus preferences.
  - b. The final Application Deadline is June 2, 2025. PharmCAS and UGA PharmD Supplemental Applications and Supplemental Application fee must be submitted by this deadline. PharmCAS must receive all materials (e.g., transcripts) by that closing date.
- e. Applicants for admission to the College of Pharmacy who are known to have been officially dismissed from another pharmacy program will not be accepted. A student who gains entrance to the College by misrepresentation of facts may be dismissed immediately.

## **2. Interview**

- a. Applicants are selected for interviews based primarily on the GPA on prerequisite courses (not all courses an applicant has completed).
- b. Interview offers are made via e-mail, which informs applicants how to schedule the time and date for their interviews.
- c. The interview is designed to assess factors including personality, interpersonal communication skills, written communication skills, motivation, career exploration, and extracurricular activities. Assessment of evaluations/recommendation letters is factored into an applicant's admissions score.
- d. At the conclusion of applicants' interviews, they indicate their preferences for the extended campus to which they would wish to be assigned in the third year of the Pharm.D. program. At the time an offer of admission is made, a student is informed which campus they will be assigned to in the third year.
- e. The first admission interviews are conducted in August or September and may continue through the following June.

## **3. Admission Decisions**

- a. Admission decisions are based on many factors, including a candidate's pre-pharmacy GPA, interview, evaluations/references, and a holistic review of their application.
- b. Admission offers are sent via email to eligible applicants after their interview during the application cycle.
- c. Interviewees not admitted at the end of the admission cycle will be placed on an alternate list or denied admission. Both notifications are sent via e-mail. If admitted applicants decline those offers, applicants on the alternate list may be admitted.

## **4. After Admission Offers Are Made**

- a. Within the time specified on admission offers, applicants must send a letter accepting the admission offer to the Office of Student Affairs and submit a non-refundable \$500 seat deposit. Details will be provided on the admittance letter.
- b. An admission offer is conditional pending the result of a criminal background check on an applicant. After being notified that an applicant has been offered admission, PharmCAS will contact that student with instructions for completing the criminal background check. The results of each criminal background check will be sent to the Office of Student Affairs for review; admission offers can be rescinded based on the results of these criminal background checks. The complete College of Pharmacy criminal background check policy can be viewed at the [UGA Pharm.D. Background Check Policy Page](#).
- c. Accepted applicants must begin in the semester for which they were admitted. Anyone admitted into the program that chooses not to accept their admissions offer is eligible to reapply in the following admission cycle.
- d. Accepted applicants may complete only two prerequisite courses after the spring semester (i.e., during Maymester or summer sessions) prior to beginning the Pharm.D. program in the fall semester. An admission offer will be rescinded if an accepted applicant receives a grade below C- in a course taken after the spring semester.

## **5. Advising and Registration**

- a. Attendance at an advising and registration session is mandatory for all incoming Pharm.D.

students. Advising sessions will be offered through the fall and spring semester.

- b. All incoming students are also expected to attend the PharmDawgs New Student Orientation program and White Coat Ceremony in August 2025.
